DIVIDEND NOTICE.

REACTION IN WALL STREET OVERCOMES BULL MOVEMENT

CLOSE IS EASY AND AT LOW-ER PRICES.

Generally Favorable Business Outlook a Factor in Steadying the Market.

New York, Dec. 8.—The bull movement m stocks continued in force during the early stages of to-day's stock market, but the precipitate courage of the advance overran the market and a reaction followed, which carried the average level of prices below last night. The closing was easy, and without recovery. There was no news of the day whose influence could be perceived in the market. The momentum perceived in the market. The momentum of the previous advance and the accretion naturally to any speculative movement after a given amount of progress, seemed the principal elements of the strength. During the bulge of the morning there was more appearance of animation and variety in the dealings than at any time heretofore. Stocks of all classes were transferred in enormous blocks, and at rapidly rising prices. This great activity caused skepticism about the market, and induced professional traders, watchful for aigns of a turn, to put out short lines. When the market paused after the first reaction and then started upward again, the demand from these uncovered shorts helped the new advance. From the outset enormous sales to realise were manifest in Brooklyn Transit, which was a conspicuous figure in last week's advance.

COPPER ADVANCEMENT.

Amalgamated Copper fared better, ad-

ing a point to yesterday's 5-point rise be-

Late in the day when they attempted to supply their needs and when the active speculation had already made large inroads upon the available money supply the
rate for call loans was bid up to 7 per
cent, with urgent demands of these belated borrowers. This flurry in call money
doubtless was a potential influence on the
reaction in stocks. The optimistic view of
the business and finances of the country
taken by the Secretary of the Treasury
was a cheering influence. There can be
no doubt that confidence has been greatly
increased in the future financial security
of the country by the developments in the
exchange market inflicating the accumulation of large reserve credits abroad beyond those being met by the current imports of gold. The immediate future of
the market is, of course, largely dependent
upon the character and the source of the
buying, to-day in the tremendous outpouring to take profits on the previous rise.

Business in bonds was principally in
speculative issues, in which the price
movement was irregular. Total sales, par
value, were \$4.53.500. United States bonds
were unchanged on the last call, speculation had already made large in-

Wall Street Gossip.

For the moment, the recovery in the sterling exchange rate to-day to 4.52, it was said might prevent the Bank of England having to part with some more sovereigns or having to reduce the rate for bar greid The power of this countries to take all the gold she needs in London was taken as the gold she needs in London, as well as in part for the great improvement in the security market.

The Coalers—The reported increase in the preduction of authracite so far this year of 5,500,000 tons, as compared with 1901, was considered a strong bull card for the coal roads. Brooklyn Rapid Transit—It was said to-day that several of the old directors of the Man-hattan have become largely interested in B. R. T.

Western Union—The recent strength in some of the Gould stocks is said to be due to the rumors of consolidation of the Western Union and Postal Telegraph companies, and an amicable settlement of the trouble between the Gould and Pennsylvania interests over the Western Union wires.

Union Pacific—The principal help to the rise in Union Pacific came from stop orders, which were causht on the hear side. According to the view taken in the board from this was one of the stocks in which Well party suffered the most.

Eric London started rise in Eric, and was the principal purchaser during the first hour, but it was not thought that the movement has any connection with to-day's meeting, but it was founded on the theory that the Eric shares had not borne their due part in the advance.

Pennsylvania — These were apparently some very heavy atop orders on the short side of Pennsylvania around 119. H. Content & Co. bid the price up shartly with a view to making the covering as a parallel. De Witt the covering as a parallel, De Witt the covering as the price of the price of the way a learn in Pennsylvania and other was a heavy, sales in Pennsylvania and other species, and it was thought that he was putting out short stock for the Waldorf clique.

New York Curb Market.

New York Curb Market.

REPUBLIC SPECIAL.

New York, Dec. 8.—The curb market was firm, with the Copper shares features. All of them exhibited strength, Greene recovering from 114 to 14 on sales of 5,00 shares, and Tennessee sold from 256 up to 256 on sales of 1,500 shares. Standard Oil advanced 7 points at midday to 555 on sales of 25 shares. New Orleans Railway common, with sales of 400 shares, advanced from 10% to 11.

Other transactions were: American Can preferred, 22 to 32%; Havana Tobacco, common 25; Seaboard Air Line, common, 600 at 22% to 25%; Northern Securities, 1,500 at 30 to 85%. Trading continued active during the last hour; although fractional concessions were recorded in some of the prominent stocks, the general tone was strong. Standard Oil was more active, the total transactions for the day amounting to 33 shares, at from 550 to 555. Sight gains were recorded in Can preferred and in some of the less active stocks. Northern Securities and Greene Copper reacted fractionally.

HEAVY BUYING OF WHEAT PREVENTS A BAD BREAK.

MOST OF THE NEWS IS DE-CIDEDLY BEARISH.

Corn Still Disposed to Weakness, Though Provision House Is Liberal Purchaser.

Chicago, Dec. 8. - Notwithstanding a neavy selling movement to-day and bullish cables, a break in wheat was prevented, the principal factor being big purchases by the leading long. May wheat closed Ways lower. May corn was off the nats

The continued fine weather, freer country offerings from Illinois and the general talk of larger receipts all weighed upon the market, and a bearish sentiment prevailed. The cash market was decidedly weak and influenced speculative trading. A big provision house was supposed to have been the chief seller, while the same interests that were leaders in the wheat pit were the best buyers. After opening unchanged to lice lower at 42%c to 42%c, May sold between 42%642%c and 42%c, closing at 42%c. Local receipts were 348 cars, with 2 of contract grade.

OATS. OATS.

Oats traders were guided entirely by the action of the leading grains, and as a re-sult the market ruled easier. Trading was principally of a local character, with buying mainly by elevators, although a prominent long took some offerings. The demand was scattered. May opened 1/4c lower at 351/4c, sold between 351/46/36c and 351/4c, closing at 36c. Local receipts were 306 cars.

CHANGE IN WEATHER

CAUSES A DECLINE.

WHEAT FUTURES

SHARPLY LOWER.

Cables Are Easy and Local Stocks in Store Are on the Increase.

There was a sharp reaction in grain values in yesterday's local market. A sudden change in weather conditions was the principal bearish indication. Many of hose who had been consistent purchasers for several days sought a chance to ease their lines, and even reported buying by Armour in Chicago was not potent to keep the market steady. Foreign prices again were on the downturn, and the movement to all Western points was large. With contract grades steadily increasing there was not much encouragement for the bulls. Cloudy weather prevailed over the greater portion of the winter belt, with prospects of snow in many sections.

May wheat opened 15c off and sold at: 8415c, 8415@5415c, 5415c, 84c, 8375c, 84c, 8376c, 834c, 834c, 8346634c, 834c, 834c, 8346834c

Though local receipts of corn were light, the movement to Chicago and other points was brisk. Weather conditions continued favorable and cables were a trifle easier. May, the only active option, opened weak and had little support during the latter half of the session.

May corn opened the off and sold at:

May corn opened %c off and sold at:
